

Welcome to 'Activate your intuition'. It's really exciting for me that you're here.

For those of you who haven't experienced my work, I'm Robyn. I'm a Teacher of Transformation and a Quantum Hypnotherapist.

As an intuitive I've always been aware of the non-physical support surrounding me but it was in the late 1980s when one specific guide made himself known to me called White Cloud that my world took on a whole new direction.

My interests started to develop, my curiosity was nurtured and this began my journey to becoming more public about the things I love to do - helping people heal - in particular their emotions, just as I had learned how to heal my own.

When we invite our divine selves in and the non-physical support into our lives it does two things.

- It elevates us and it shakes loose the low frequencies.
- You'll bring to the surface any cleansing and clearing of anything that you're not taking with you into your future and your life can take on a whole new path.

Healing is an integral part of your path to heart based power and it's a big journey.

Having the tools to let go and connect with your mind, body, soul and the divine part of you are the perfect self-care practices and support to have with you along the way.

Everything on this website is intended to support and guide those of you curious about your intuition and who have an interest in learning about emotional and energy healing practices.

The guided meditations are visual can be experienced with eyes open with no sound and all the videos are subtitled to also perfectly serve the hard of hearing and deaf community.

This work is created so you have access to gentle techniques which clear anything from the past that has no value for your future, feel confident and empowered by listening to your very own wise guidance on each new step on your path ahead.

'Activate your intuition' is the perfect self-care guide and preparation for your path to heart-based power and for any other healing and self-growth journey that you choose to invite into your life.

It's in two parts –

- Part one 'Let go and connect' and
- Part two 'Ignite your mind, body & soul'.

I invite you to begin the fun with 'Let go and connect' and join our tribe through the Facebook group 'Higher Communications - chat group' for support and opportunities to share your excitement.

I'm looking forward to our lives touching as we begin with 'Let go and connect' and I'm sending you all my love.

Robyn
