

Hello, I'm Robyn, and welcome to 'Conscious Light - Awaken the Master within'.

This is the fifth course in the 'Path to Mastery', and when you enrol, you receive all five courses -unless you choose to upgrade as you progress, which is another option for you.

In 'Conscious Light - Awaken the Master within', you will experience the second and third degree practices in preparation for your certification as master.

You will be confident in advanced energy healing techniques at a deep level using color, commands and breath work.

Further empowering your clients when also combined with the soothing healing techniques from 'Conscious Light - Healing energy program for the beginner' and the inner practices in the 'Path to Heart Based Power'.

In 'Awaken the master within' you have everything you need to hold meditation groups, heart healing workshops and retreats - if this feels like fun to you - as teaching and sharing your knowledge with those magnetized to you can become a natural progression for you.

If this is a journey you would love to take in your life, there is support in the way of private Facebook groups and online gatherings, and we so welcome you to our tribe.

It is my intention, as ever, that your heart allow more fully the feelings of ease, peace, love and freedom and I send you all my love.
